Committee Purpose and Responsibilities:
The Information Resources Coordinating Council (IRCC) is the campus-wide organization that advises the Chief Information Officer on information technology. The IRCC is charged with making recommendations to the Chief Information Officer on information technology innovation, coordination, collaboration, policy and communication of actions by East Carolina University and its constituents. The Chief Information Officer is responsible for all Information Technology at ECU.

The IRCC ensures communication between and makes recommendations on actions to university committees, task forces, administrative and other bodies seeking to plan or implement information technology initiatives. This work includes but is not limited to recommendations on IT policies, the planning and implementation of new projects, technology assessment, the change or elimination of current projects or IT actions, and other information technology related activities.

The Council shall review information technology policy, planning and implementations actions, proposals to plan, or implementations that may have a significant impact on the University including Information technology managed by functional units on campus.

Terms of Office:
Appointed bi-annually by the respective Department Head or Dean

To Whom the Committee Reports:
Vice Chancellor, Administration and Finance
